

2022 Annual Report Summary

Save the Children

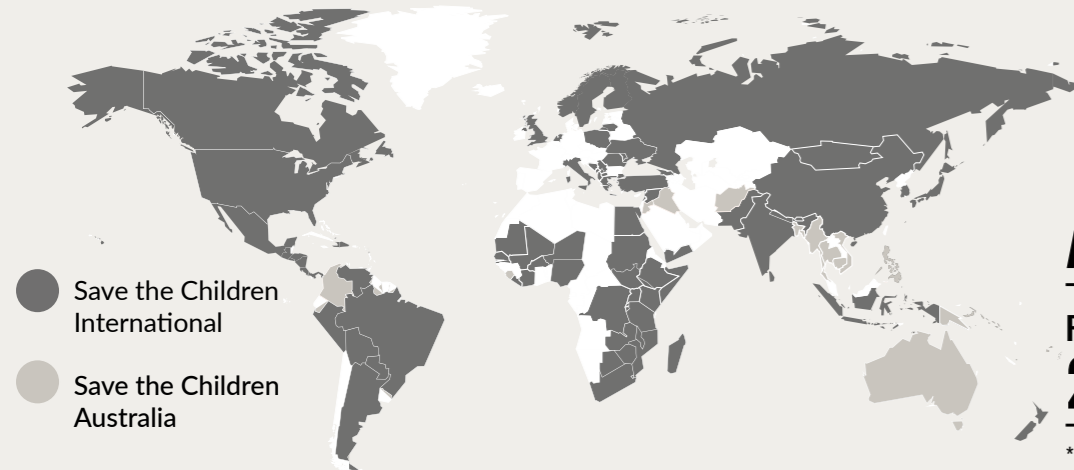

CEO Report

In 2022, we acted with agility and urgency to lift up the rights of children through our actions and our advocacy. We did so in Australia by working alongside communities to understand and address the immediate and long-term impact that crises have on children. We did so globally with the conflict in Ukraine, leveraging the best of our social enterprises and technology to create impact for children on the frontline of a war. In Papua New Guinea, Fiji, Tonga, Solomon Islands and Vanuatu, we helped children and families to bounce back from COVID-19 and grapple with the harsh realities of climate change.

In this Report we highlight some of the impacts of 2022, but we know thousands of actions from thousands of people were needed to deliver these outcomes. To all who played a part – our staff, partners, governments, donors and the communities we work with – we couldn't achieve what we do without you.

Mat Tinkler
 Chief Executive Officer
 Save the Children Australia

Our impact in numbers

To keep ourselves accountable to our supporters and the community we serve, we evaluate the reach, impact and efficiency of our programs and services. In 2022 Save the Children directly reached 1,104,621 people through our services delivered in Australia as 54 reasons and through our International Programs.

Our global humanitarian response

Save the Children Australia is part of a global movement delivering programs around the world. In 2022, our corporate and individual donors contributed \$2.9m to global emergency responses, from the outbreak of conflict in Ukraine, to the hunger crisis in the Horn of Africa.

Save the Children Australia is part of the world's first and leading independent children's organisation. We work to protect children's rights in Australia and around the world.

We are a dynamic and diverse portfolio of entities using different business models united by a common purpose: to achieve systemic change by creating smart solutions to the critical problems that children face, so they are empowered to live a full life and reach their potential.
